MEMENTO THE GIFT OF A LIFETIME

BY MICHAEL McQUEEN, PARK STREET PRESS, \$34.95

If I wanted to choose one gift that could be given to everyone on my Christmas list, it would be *Memento*. Author Michael gave his father a notebook with a list of questions about life, ideas and unfulfilled dreams. When his father died, Michael found the book. The questions had been answered. What he found out when he read those pages touched and astonished him. He has devised this book as a series of 100 or so questions. I'm handing out copies of *Memento* to my nearest and dearest. They may not want to share what they write in the blank spaces. Fine. But I'm sure there will be matters arising that will make for some very good conversation. And a sense of getting closer.
